Submitted to: Kadimi Tools Mfg. Co. (P) Ltd.

2017

Implemented by: PHD Rural Development Foundation

CHAPTER 1

Background

KADIMI TOOLS and PHDRDF have joined hands to provide community healthcare to less privileged and Low Income group of Gurgaon, Haryana under the **Program "Kadimi Tools MOBILE HEALTH SERVICES".**

1. Objectives of the Program
   - Providing basic healthcare services to Low Income groups.
   - Diagnosis of Diabetes and Hemoglobin

2. Methodology for implementation of the "Healthcare Intervention" Program
   - Organizing generic health camps, eye screening camps and health awareness camps
   - Networking and laisoing with government healthcare functionaries, if required
   - Displaying and distributing banners, posters, pamphlets for promotion of the project

3. Intervention Matrix
   - Total Targeted Locations/ villages: 2
   - Total Generic Health camps : 18 in number
   - Total Eye camps: 2 in number
   - Total Awareness camps: 4 in number
   - Approximate Beneficiaries: 2000

4. Pre Health Camp Activities:
   - Pre- project survey to identify/ shortlist the villages
   - Community mobilization
   - Appointment and capacity building of team
   - Finalization of schedule of camps and other logistic arrangements with the support of community members and KADIMI TOOLS

Activities undertaken

1. The identified area was screened and sites were identified in consultation and feedback from the community, village Sarpanch and discussion with KADIMI team.

2. Monthly schedules were prepared and shared with the KADIMI team for their consent.

4. Health camps were conducted as per schedule at the specified location. 2-3days prior to the health camps, promotion was done through banners and posters and communication through community representatives.

5. Regular community feedback was provided to KADIMI representatives and suggestions from KADIMI team were taken into consideration in the implementation of the health services.

Target	Achievements
To conduct 2 health camps across 2 locations	Conducted 2 health camps across 2 locations
To benefit 220 individuals	216 individuals benefited
